## **Payment Information**

All fees are due at the time of service. Payments will be accepted in the form of cash, check, or major credit card. A small convenience fee will be charged for credit card payments.

## **Your Insurance Company**

Many health insurance companies provide benefits for speech therapy services while many others do not include such benefits. It is recommended that you call your insurance company directly and ask for information regarding benefits for speech therapy. It is also strongly suggested you request information in writing rather than just verbal information over the phone. Also remember many insurance companies will provide benefits based on their particular reimbursement rate and you are advised to inquire about specific reimbursement rates and percentages allowed for out-of-network providers. Some insurance companies provide insurance coverage for evaluations only and do not make it clear their benefits are just for one evaluation session and not for ongoing therapy.

While there is no direct insurance billing, monthly super bills are provided. These are receipts for therapy services containing the relevant diagnosis and treatment codes that you can submit to your insurance company for possible reimbursement.

Periodically insurance companies may request documentation regarding speech therapy services. I will provide reports and/or therapy notes as requested, following the initial paid evaluation. However, it is important to remember that I am defined as the service provider and never imply nor suggest any specific benefits your insurance company may or may not provide.
